

Caremate User Manual

Introduction

Caremate is designed to provide a reliable and easy-to-use platform for elderly care assistance. It allows users to set reminders, connect with caregivers, make emergency calls, and use essential features without mandatory signup. However, certain features require user authentication for better personalization and security.

Features Overview

1. Reminders

- Set medication or daily task reminders.
- Requires phone number verification through **Twilio API** for SMS notifications.

2. Caregivers

- Browse and connect with registered caregivers for support.

3. Video Call

- Allows video communication between caregivers and users.

4. Emergency Button

- A one-click emergency alert system to notify caregivers or family members.

5. ChatBot

- Instant AI-powered assistance for general queries.

6. Profile & Daily Schedule (Requires Login)

- Only accessible after signup/login.
 - Users can track their daily routines and personalize reminders.
-

Access Guidelines

- If you **don't sign up**, you can still access:
 - **Reminder**
 - **Caregivers**
 - **Video Call**
 - **Emergency**
 - **ChatBot**
- If you want to access **Profile and Track Daily Schedule**, you need to **Sign up / Login**.

- To use the **Reminder feature**, you must **verify your phone number using Twilio API**.
-

Features Overview & Step-by-Step Instructions

1. Getting Started

Step 1: Open your web browser and navigate to the Caremate website

Step 2: Explore features without signing up, or click "Sign Up" for full access

2. Account Creation & Login

Step 1: Click the "Sign Up" button in the top navigation

Step 2: Fill in your personal details (name, email, phone number)

Step 3: Create a secure password

Step 4: Verify your email address if required

Step 5: Log in using your credentials

Demo Login Credentials:

- Username: Vedant Manish Chaudhari
- Password: ved

3. Reminders Feature

Step 1: Click on "Reminders" in the navigation menu

Step 2: Click "Create New Reminder"

Step 3: Fill in reminder details (medication name, time, frequency)

Step 4: Verify your phone number using Twilio API for SMS notifications

Step 5: Save the reminder - you'll receive notifications at the scheduled times

4. Connecting with Caregivers

Step 1: Go to the "Caregivers" section

Step 2: Browse available caregivers by specialty, rating, or availability

Step 3: Click on a caregiver profile to view details

Step 4: Use the "Contact" button to send a message or request services

5. Video Calls

Step 1: Ensure your device has a working camera and microphone

Step 2: Navigate to the "Video Call" section

Step 3: Click "Start Call" and allow camera/microphone access when prompted

Step 4: Share the link or code with others to join

6. Emergency Button

Step 1: Locate the red "Emergency" button on the main dashboard

Step 2: Press and hold for 3 seconds to activate emergency alert

Step 3: Confirm your emergency contacts are set up in your profile

Step 4: Emergency services and your contacts will be notified automatically

7. Using the ChatBot

Step 1: Click on the chat icon typically located in the bottom right corner

Step 2: Type your question or select from common queries

Step 3: The AI assistant will provide immediate responses and guidance

8. Profile & Daily Schedule (Requires Login)

Step 1: Log into your account

Step 2: Click on your profile picture or name

Step 3: Edit personal information, health details, and preferences

Step 4: Navigate to "Daily Schedule" to view and manage your routine

Step 5: Set up recurring activities and track your daily progress

System Requirements

- A modern web browser (Chrome, Edge, Firefox, Safari).
- Internet connection.
- For SMS reminders: a valid mobile number.

Support

If you face issues while using Caremate:

- Contact your system administrator or support team.
